Summary

Final-year Computer Science student at FAST University with strong expertise in **MERN stack development and AI-powered backend systems**. Experienced in building scalable full-stack applications, secure REST APIs, and LLM-based document intelligence solutions. Proven ability to integrate AI features into production-ready web applications. Dean's List recipient for five consecutive semesters.

Skills

- **Frontend:** React.js, Redux, HTML, CSS, Bootstrap
- **Backend:** Node.js, Express.js, FastAPI
- **Databases:** MongoDB, SQL
- **Languages:** JavaScript, Python, C++
- **AI / LLM:** LangChain, Embeddings, Pinecone, Vector Search
- **APIs & Auth:** REST APIs, JWT Authentication

Experience

Code Practitioners

Jul 2024 – Aug 2024

Software Developer Intern

- Developed and maintained scalable full-stack web applications using the MERN Stack.
- Built reusable and responsive React components to improve UI consistency and performance.
- Designed and implemented secure RESTful APIs using Node.js and Express.js.
- Structured MongoDB schemas and optimized queries for efficient data handling.
- Collaborated in debugging, testing, and iterative feature enhancements.

Projects

PdfQuery – AI-Powered Document Q&A System (FastAPI, LangChain)

Jan 2025 – Mar 2025

- Designed and developed an AI-based system to query and analyze PDF documents using LLMs.
- Implemented text chunking, embedding generation, and semantic search pipelines.
- Integrated Pinecone vector database for efficient similarity-based retrieval.
- Built a secure FastAPI backend with JWT-based authentication.

ByteBlog – Full-Stack Blogging Platform (MERN Stack)

Jun 2024 – Jul 2024

- Developed a full-stack blogging platform using MongoDB, Express.js, React.js, and Node.js.
- Implemented role-based authentication and authorization using JWT.
- Built features including Markdown-based blog creation, comments, and favorites.

News App – Real-Time News Platform (React.js)

Dec 2023 – Jan 2024

- Developed a responsive React.js application consuming real-time news APIs.
- Implemented dynamic filtering, categorization, and optimized state management with React Hooks.

Education

FAST University

Bachelor of Science in Computer Science

Dean's List for seven consecutive semesters

Aug 2022 – Present

CGPA: 3.6
